Compete Means Opportunity For Newcomers.

New York, May 12.—A new crop of golf champions is in the making. This follows for the reason that several well known players have decided not will be the reestablishment of a limit

to defend their tition.

Three fixtures in mind are the pational open metropolitan amateur and metropolitan juntor, and there also appears to be some doubt as to the inntentions of Charles "Chick" Evans. who has won the championship of the Western Golf association, on four oc-

casions.

Some time ago Jerome D. Travers, the Upper Montclair amazeur, who agrang a sensation by national open at Baltuarol last year, declared that he did not expect to make the long trip to Minikahda and since then Jerry has given no indication of changing his mind

The absence of Travers, may be a relief to the pros. who with the exception of [913, when Francis Oulmet won at Brockline, have had mattern pretty much their own way in the

waiter J. Trayis, the veteran winner of the metropolitan fiftie at Apawarms, last year, has said be will remain out of tournaments this seasee. In making such a decision Travisprobably robs himself of an excellent
chance to run just one more champlouship, for he always performs well
at Massau. It was there in 1803 that
he won the national amateur bonor for
the third and lest time, and he also
won the metropolitan on the same
links.

Then there is Philip Carter, who for three years has won the "met" jurior. Carter is no longer eligibile.

Aside from the actual titleholders no defending, other favorites will be missing. Ouinet's inability to play as an amateur will of course, remove one of the favorites from the big fixture at Merion.

In a well played battle, the Levisburg Peppers trimmed the soldiers' team from Hachita, 8 to 5. There were many critical moments with positions all occupied, when one little bingle would have taken the laurels down the border, but the bingles never came. The game was well played on all eides save the Hachita infield. Bobbles got into the troops.

canic Mound.

Few, if any, of the mineral resources of Texas have attracted as much attention in the last two years as has a release in meral ambatance known as Vitalitas. This is being extensively mined, from the interior of a hung mound, said to be of volcanic origin and located in the fint coast country of South Texas.

This remarkable mineral-chemical stratum, appears to come straight up from the interior of the carth and it has been classed as the eighth wonder of the South.

Scientists have marveled over this fortunation and analysis of its properties have made in laboratories throughout America. Crude Vitalitas continus a remarkable combination of earth chemicals and suspended with them is a ferre which has not been positively classified. The same or a similar force is faintly traceable in the medicinal waters of Carlabad, Bohumia and the waters of Hot Springs, Ark.

When whiel from the earth crude Vitalitae is shipped to laboratories where its properties are extracted in liquid form, and this constitutes what is now winely known as liquid Vitalitae, now lead to the constitutes what is now winely known as liquid Vitalitae, now being claused as the greatest curative force of the age. The fame of Vitalitas has rapidly spread throughout this country and even abroad, as shipments of it have been made to various parts of the old world. A display and demonstration of Vitalitas is to open in this city.—Advertisement.

persed and nothing much was accomplished.

A meeting was held at right in the assembly hall, to make a last effort to organize a company. This meeting was altended largely by women and children and old men, with very few men present who were eligible for military service. Some of the boys, who thought that the trip to the border would be quite a lark, were dissuaded from leining by their parents. It was seemingly not on account of lack of particular of the many little things which arise that hinder and keep them from leaving their homes.
